Micro.

ITA **Micro.** è un progetto.

Un progetto aperto e in continuo sviluppo che ricerca l'essenza, il minimo comun denominatore. Cerchiamo l'ergonomia, la sintesi, quella piccola cosa che può cambiare davvero la nostra vita in meglio. Hai presente? Un materiale più leggero e resistente, un rivestimento modellabile, non mettendo mai da parte la bellezza, la comodità e l'uso che ne farai. Collaboriamo con i migliori designer al mondo per portare avanti questo progetto perché ci piace sognare un futuro prossimo dove tutto quello che abbiamo intorno sia così.

ENG **Micro.** is an open project, a work in progress.

We search the essence, the lowest common denominator. We search ergonomics, synthesis, that little thing can really change our lives for a better living. Do you know what we mean? A more lightweight and resistant material, a moldable coat for example. Beauty, comfort and the use you're going to make of our products is our primary target. We work with the best designers in the world to carry out this project. We dream a future where all you have around is better than ever.

ITA Familiar è un progetto che nasce dal desiderio di confrontarsi con il mondo delle “graniglie”. Il grande rispetto che la filosofia Micro. ha verso le materie naturali ha portato a realizzare un prodotto che si distanzia volutamente dalla simulazione dell’originale. L’utilizzo di un filtro digitale dona alla superficie un sapore fortemente contemporaneo mantenendo vivo il ricordo del prodotto autentico. Le quattro tipologie di superfici realizzate con diverse granulometrie su 4 toni cromatici abbinabili ai 13 colori del progetto Micro. permettono un utilizzo versatile del prodotto, dal rimando elegante e più classico del monotinta sino alla giocosità della proposta mix.

ENG Familiar is a project born from the desire to deal with the world of “grits”. The great respect that Micro. philosophy has towards natural materials has led to the realization of a product that deliberately distances itself from the imitation of the original. The use of a digital filter gives the surface a highly contemporary flavor while keeping alive the memory of the authentic product. The four types of surfaces are realized with different granulometries on 4 chromatic tones which can be combined with the 13 colors of the Micro. project, allowing a versatile use of the product, from the elegant and more classic evenness of the plain color up to the playfulness of the mix proposal.

Perlinato

Design
Roberto Cicchinè

ITA Perlinato è un progetto che si ispira alle superfici in legno tipiche in edilizia particolarmente utilizzate negli anni '70 come rivestimenti decorativi. Doghe ceramiche create per trafilatura e realizzate con maschiature sui lati lunghi permettono l'incastro degli elementi per creare una superficie monolitica senza l'utilizzo dello stucco tra una doga e l'altra. Prendendo in prestito dall'originale il sapore démodé, questo perlinato ceramico, con l'aiuto di elementi angolari e di chiusura, decora pareti con zoccolature o campiture piene nei vari ambienti della casa. L'utilizzo nei 13 toni cromatici rafforza la capacità del progetto di adattarsi a molteplici atmosfere da creare e condividere con le altre collezioni del progetto Micro.

ENG Perlinato is a project inspired by the typical wooden surfaces characteristic in construction particularly used in the '70s as decorative coverings. Ceramic slats created through a die and made with tapping on the long sides allow the joints of the elements to create a monolithic surface without the use of grout between one slat and the other. Borrowing the old fashioned flavor from the original inspiration, this ceramic perlinato (matchboarding), with the help of angular elements and closure, decorates walls with plinths or full coverings in the various spaces of the house. The use of the 13 chromatic tones reinforces the ability of the project to adapt to multiple atmospheres to be created and shared with the other collections of the Micro. project.

I pezzi ceramici contenuti in queste scatole sono il risultato di un prodotto artigianale fabbricato a mano e si caratterizzano per l'esclusività e le piccole variazioni di continuità, tramatura e calibro tra i vari pezzi. Eventuali leggeri difetti superficiali sono da considerarsi parte integrante dell'artigianalità del prodotto. I toni presenti all'interno delle campionature sono da ritenersi indicativi e possono variare leggermente tra una produzione e l'altra. Non si accetteranno reclami una volta posato il prodotto.

The exclusive ceramic products contained in these boxes are hand made and characterized by a slight variation in texture and caliber among different pieces. Any slight surface defects are possible and considered an inherent characteristic of this hand made product. The shades of samples are indicative as they may vary slightly across production lots. No claims will be accepted once the product has been fixed.
